

Knowledge, Brotherhood

We were 18 and we were on the streets
Never had a worry we always had a place to sleep
With a small tight crew who'll be there til the end
We always felt safe coz we were in the company of Friends
That's brotherhood
And you're my brother
You'll always be my brother no matter what you do

Now we're getting older and many things have changed
Some of us have moved away the memories never strained
With a small tight crew that'll be there til the end
We'll always be together and we'll always be good friends
That's brotherhood
And you're my brother
You'll always be my brother no matter what you do
