

Knowledge, Inikwity

You say you're nothing without God
Then you kill me off with your war
Many of your tactics have done well
Nobody can tell you how to feel

Straight block the holyness game
Show me the meaning of life
My life's just as thou art
You hand me a gun like a (f*cking) coward

Your fight design is of a failures
You know what you're doing's against Jesus
When you're born you get behind
You get whatever you get

You're only becoming a Jew
so that you don't go to hell
But where we are going here...
Did you know that God is everywhere?

Jesus loves you
But I think you're an a**hole
