

Kodie & Jean Maxwell, Only One Night (feat. Rigo)

we only got one
only one night
only one night in town
so could you be my princess girl
for only one night
I'll be around
and I wish this night would never end
(Jean Maxwell)
never end
(Kodie)
never end
(Rigo)
and I wish this night would never end
only one night

we're not tired yet, are we?
I'm raising a party army
disturbing the peace, I'm sorry
but my entourage needs an Ari
we came to paint the town red
party hard and get sick in head
we only got one night in town
so turn it up and let's shut it down
I'm with my boys at the bar
she with her girls on the floor
we spot each other from far
the energy bring us close
ravin outta control
makin' out on the floor
meet me outside in ten
after party, bring all your friends girl

we only got one
only one night
only one night in town
so could you be my princess girl
for only one night
I'll be around
and I wish this night would never end, no
woy oy oy oy, woy oy oy oy
we only got one night to spend, woy
woy oy oy oy, woy oy oy oy
and I wish this night would never end
we travel round the world
everyday another flight
that's why I'm leaving in the morning girl
maybe we can kick it, if the feelin' is right
but baby keep in mind

we only got one
only one night
only one night in town
so could you be my princess girl
for only one night
I'll be around
and I wish this night would never end, no
woy oy oy oy, woy oy oy oy
we only got one night to spend, woy
woy oy oy oy, woy oy oy oy
and I wish this night would never end

never end
never end
and I wish this night would never end
