Koldbrann, Bestial Swarm

Frenetic roar from above a key to the abyss unleashed From the far side of reality lands concealed in hellish smoke Feeble, cast no shadow you're next in line

Bestial Swarm - spearhead of the beyond Bestial Swarm - embodiment of the Bastard Spirit

Whirling shapes of abhorrent kind as reflections of insane fright Horned locusts of poisoned being Aggressor of extreme prejudice Artifictial facet eyes of inhumane breed

Bestial Swarm - devilish outbreak Bestial Swarm - woe unto their holy ways

As man sought death's relief none he was granted to find To dwell in fruitless hope the ultimate Torment!

Bestial Swarm - harbinger of Doom Bestial Swarm - death to god's sperm

Down to the crust Brimstone and fire Crave them to suffer Impale their sight
