

# Komodo, Miami Deja Vu

Let's get lost together, You and I  
'Cause love becomes a drug, When It's taken right  
You'll keep making waves, Oh forever wild  
So wild

Sometimes you just vanish, It's misery  
Guess you're the kind of deep trouble that I need  
Tell me what I can do to keep you next to me,  
Next to me

We don't sleep at night, Oh I love the things you do  
We got paradise, like Miami Deja Vu  
I think you know why we keep breaking all the rules  
It leads me back to you  
Miami Deja Vu

Miami Deja Vu  
Miami

Girl you kill me softly, Your hips don't lie  
A midnight summer love in the city lights  
Addicted to the way you're forever wild  
So wild

We don't sleep at night, Oh I love the things you do  
We got paradise, like Miami Deja Vu  
I think you know why we keep breaking all the rules  
It leads me back to you  
Miami Deja Vu

Miami Deja Vu..  
Miami

Miami, Miami, I remember..  
Miami, Miami, so forever me and you my Miami Deja Vu

Miami, Miami, I remember..  
Miami, Miami, so forever me and you my Miami Deja Vu

Miami Deja Vu
