

Komodo, Without You (feat. HELENA)

no matter what i do
i need you around
in every hideway
you're tracking me down
I wanna walk away
but I can't do without
without you darling
without you darling

I hear your voice in my head
caound't get it out
I don't eanna feel nothing
but I can't just shout it loud
if you really love me
them how can't you just turn around
so many times baby
so many times
come tell me now

no matter what i do
i need you around
in every hideway
you're tracking me down
I wanna walk away
but I can't do without
without you darling
without you darling

have you ever seen me darling
naked in the light
or kissing your neck
while walking in the night
somebody should stop me
now, cause I can't get it right
so many times baby
so many times
come tell me now

no matter what i do
i need you around
in every hideway
you're tracking me down
I wanna walk away
but I can't do without
without you darling
without you darling
