

# Kooks, Pull Me In

I get this feeling sometimes  
Like theres nothing in the world that isn't mine  
And I could have it all  
Maybe I should have it all

I'll take you out of your life  
Just the one sweet night  
And you could take it all  
Oh maybe I could rip it off

It's easy to pick and choose  
With you and me we can only lose  
Just don't fight me off  
And I won't write you off

Take me in and then you push me out  
Fall all over yourself tonight  
And just don't let it go, without a fight  
Take me in and then you push me out  
Fall all over yourself tonight  
And just don't let it go, let it go

So here I am again  
Singing songs about the summer  
Cause that's when you and me  
When we came to be

I brought you home to my guitar  
And told you how sweet you really are  
Cause you know what's on my mind  
Is you getting all this time

It's easy to pick and choose  
With you and me we can only lose  
Just don't find me out  
And I won't fight you off

Take me in and then you push me out  
Fall all over yourself tonight  
And just don't let it go, let it go

Oh no no, another girl, no no
