

Kooks, Tea & Biscuits

I'd like to take you out, for tea and for biscuits,
And show you the city, as I see her, how I need her,
She is my beauty queen and my lover,
Yes I love her,
She takes me where I want to go,

And out of my blue sky eyes, I see a blue you,
And out of my blue sky eyes, I see a blue you,

I'd like to take her out for tea, I hope she likes biscuits,
She lies in my hands,
Moving now, I said moving,
Let's us love to be alone,
Oh and I got no love to give,
Still we sit there and I'm high,

And out of my blue sky eyes, I see a blue she,
And out of my blue sky eyes, I see a blue she.
