[Kool Keith]
Fascinatin with the quickness
I make models come to public housing and visit
That's how technical I get exquisite
Bangin on pipes
Lookin at cops walkin up the stairs with flashlights
Most MC's wearin leg-warmers and tights
I come with Dominican girls with bodies like Jennifer Lopez
Wearin tight shorts from Washington Heights
Ride first class with flights to Santo Domingo
with sombrero performin my single
with my hype-man Al Gringo
I'll watch you in the front cat don't let your face get wrinkled
Side effects miss you
Jump around you gonna need a napkin and a tissue
When I gross up the max you count the issue
Buy The Source cover for twelve months
and send other rappers over to pose
and take pictures for some potato chips and Cap'n Crunch
That's how I take suckers out to lunch
Forget the internet, the website, that's no way to step right

I ain't sittin by no computer, I'm goin to Bermuda
