

Kool Keith, Fine Girls

[Keith] Hey baby.. my name is Keith

[Girl] Hi Keith

[Keith] I always see you comin home from school, work
or college, wherever you comin from

[Girl] Mmm-hmm

[Keith] I'm a big secret admirer of you

I see you all the time

Sometimes you don't even look very happy

[Girl] No I'm not happy at all

[Keith] I wonder, what's really goin on in your life

Would you tell me?

[Girl] A lot of problems

[Keith] But I got things to tell you

[Kool Keith]

I like your pretty eyes

Tell me where you get your hair done, your face so clear

With fourteen carats diamonds in your ear

He beat you up, I'll eat you up, reheat you up

Come fix your life, make you my wife, improve in time

No wine and dine, don't waste my time, mature your mind

I redesign, you changin faces

Stop playin games girl, you two of clubs, I'm pluckin aces

Your girlfriends don't matter

Jealousy's another info, she thinks I'm mental

I love you keep it confidential

[Chorus: Kool Keith]

You're that fine girl from high school, college graduate

Lady always on my mind, girl can you imagine it?

[Chorus x3]

[Kool Keith]

I seen you cryin

Relyin on some old backbone prone

I give you stuffed animals, sprinkles on a chocolate cone

You turn your face up

Your body shaved legs to the waist up

You feelin sad, face down, always lookin mad

I counteract, I contact

Spot you out where the maps at

I caught you starin, why you actin baby?

There's no slackin, the second time I work this

This ain't no clown and circus

You takin Advil, for headaches

I met you girl on purpose

Stressed out with girlfriends

That zero hero leasin his Benz

You under peer pressure

(You think about it girl, think what you really doin)

[Chorus x4]

[Kool Keith]

I dial your home phone

Know your code and area zone

You trapped in mom's house, restrictions feel like Minnie Mouse

I know you turnin yearnin learnin

plus your heart is burnin, I'm still concerned while you blinkin

My mind is thinkin, outside your area

You got that space for occupation, big motivation

Let me drop my fierce information

Come here girl, I wanna talk to you
I wanna tell you a lot of things
Different things that you never talked about
Different things you had to go through
What I've been through, before you've even been with
I'm tellin you

[Chorus x4]
