

Kool Keith, Honey I Miss You

[Kool Keith:]

Kool, Keith

Baby did you cook anything tonight?

What's in the frying pan? Oh~!

You made that salsa huh?

Oh that tastes good, put me some in there

Oh yeah, hold up, aight

Honey I miss you! [x3]

Woman explain to me what you doin, I gotta look at you while you sleep

It's professional when our lips meet

You're the main attraction, perfume smells sweet

Remove your panties off, catch your heartbeat

I can't babysit you, I can't stay wit'chu, every week

I walk you at home at night, listen to you when you speak

My mind on your sofa, what would you like to do?

I'm on your grey leather love seat

I feel your love heat, all your love sweet

Havin orgasms to my love deep

The nighttime visitor, booty call

Girl can you find a babysitter?

You talkin that one hitter quitter

It's all night, it's alright

Get in the back, do your thing

do it miss thang (do it miss thang)

I gotta cheer up your facial expression

You need your stress relief, a heavy sexual session

While hot strawberries bounce off your stomach section

Let me explain to you what I'm testin

Over the bra that cover your chest'n

External foreplay is what I give you all day

You already used to me shavin your legs and moisturizin your skin in the jacuzzi

I'm bound to find you, before you lose me

With cocktails and crystal glasses

I'm blandin to see, business girls from the financial district

I'm shocked, you takin me on a shoppin spree

You wanna let me come over unless a hater stoppin me

Turn that record off, he's floppin B

Honey I miss you! [x3]

[Kool Keith - singing]

Honey I miss you more, than, anything, in the world

Honey I miss YOU, honey I miss YOU

Honey I miss youuuuuuuuuu, more than anythiiiiiiiiiiiiing

in this worrrrrrrrrrrrrrrrrld

I miss you
