

Kool & The Gang, Misled

Stone Love
Kool & The Gang

Girl the first time we met
You took me by surprise
Girl you walked into my life
With those street corner blues
You were living in the fast lane
Much to my surprise baby
But I feel for you anyway
I'm addicted to your love girl
*Stone love
Solid as a rock
I'm in love with you baby
Stone love
Solid as a rock
Girl our love is so unique
It's one of a kind
And girl when ever we kiss
It's like a natural high
But we're living in the fast lane
Red lights flashing baby
Will we ever change
The way we are stone love girl
*Repeat
The life we live is a challenge
Always standing on the edge
**May not be the best way but that's all we know
'Cause I don't wanna live my life alone no no
*,**Repeat
Oh love you're my love
You're my everything I've ever wanted baby
yeah yeah now talking about stone love now
You and me baby
