Koop, Come To Me

Baby, I've been waiting for you Don't run away now You've got nothing to lose Baby, I feel so alone And I need someone To call my own

'Cause my love has just left me And I need someone new Who can tell me forever In my eyes I own you (?)

Baby, oh baby, oh baby Come to me

Baby, I've been waiting on you Don't run away now You've got nothing to lose Baby, I feel so alone And I need someone To call my own
