Koop, In A Heartbeat

Standing next to you A dream is coming true In a heartbeat Feeling's right I finally see the light In a heartbeat Something in your eyes Has got me hypnotized In a heartbeat And near or far I try to be where you are In a heartbeat Wanna laugh wanna sing Wanna do everything In a heartbeat Wanna live wanna be Where's the spirits are free In a heartbeat Keep it up keep it down Keep it turning around In a heartbeat Make it dark make it light Make it magic tonight In a heartbeat It all seems strange My whole life has changed In a heartbeat Love is shining through In everything you do Honey in a heartbeat And something in your eyes Has got me hypnotized In a heartbeat And near or far I try to be where you are In a heartbeat
