

# Koop, Summer Sun

Hey, Summer Sun  
You always smile  
Clouds in the sky  
You never mind  
Happy or sad  
You always shine  
Never before  
I've met your kind

Love had never got a hold on me  
Until you stepped out of a dream  
My life once a misery  
Now your love has set me free

Hey, Summer Sun  
Your love's divine  
Never before I've met your kind  
And now you're mine

Hey, Summer Sun  
You always smile  
Clouds in the sky  
You never mind  
Happy or sad  
You always shine  
Never before  
I've met your kind

Love had never got a hold on me  
Until you stepped out of a dream  
My life once a misery  
Now your love has set me free

Hey, Summer Sun  
Your love's divine  
Never before I've met your kind  
And now you're mine
