

Korn, Ever Be

You're the infection, my friend
Disgusting right to the end
Didn't I know it then?
I knew that, I knew it

You're basic, but hard to define
Simple, yet somehow sublime
Know you will strike again
I knew that, I knew it

You're all that's wrong
With your dumb ass song
Yeah, that's all that you will ever be
Nothing you can do 'cause
that's all that you will ever be

Polished, you shimmer when shined
But rotten and seeding inside
Everyone falls for this
I knew that, I knew it

You're all that's wrong
With your dumb ass song
Yeah, that's all that you will ever be
Nothing you can do 'cause
that's all that you will
that's all that you will
that's all that you will ever be

Ever be, never be, want to be god
Oh to be, need to be, holding the sod
Throwing it, breaking it over your grave
Sending you back to the place you once came

It would be hard to be you
Knowing the right thing to do

You're all that's wrong
With your dumb ass song
Yeah, that's all that you will ever be
Nothing you can do 'cause
that's all that you will ever be

Ever be/never be/wannabe (Repeat)
You will never be (Repeat)
You want to be God (Repeat)
It's all God (Repeat)
It's all gone (Repeat)
