

# Korn, Open Up

What were you thinking  
I guess I'll never know  
See your eyes blinking  
Pupils begin to grow

Drilling you softly  
Pulling you in  
Making your mind up  
What's sick or a sin

[Chorus]  
Open up now  
Let it all go  
I'm quite certain  
Say it aint so  
You're corrupted by  
Some sick fuck  
Oh no  
Open up now  
Head in the sky  
Pierce the tongue that  
Keeps telling lies  
Feelings in my mouth  
You breathe in but can't breathe out

What you've been taking  
It makes you talk  
Real slow  
How come I'm thinking  
You'd be the last  
To know

(You'd be the last to know)

Choking you gently  
Gaining control  
Hand you the shovel  
To dig your own hole

[Chorus]  
Choking you gently  
Gaining control  
Hand you the shovel  
To dig your own hole

Open up now  
Let it all go  
Open up now  
Let it all go

Open up now  
Head in the sky  
Pierce the tongue that  
Keeps telling lies  
Feelings in my mouth  
You breathe in but can't breathe out

You breathe in but can't breathe out
