

# Korn, Play Me (Clean)

Nas:

Everybody's an Enemy  
tellin' me lies and it's killin' me  
why they all want to get rid of me  
Everybody's my enemy  
Several try to disguise the devil in them  
Wantin' get into my cerebellum but I'm  
Ready and willing to tell them I can't ---- with them  
Exhale so hard it got my chest swelling  
Like my dick does watching naked teachers  
Do sick stuff on my born collection on TV

Nas:

Trust nobody  
I don't know who to call a friend  
they all just pretend to be  
---- Everybody this is to all of ya'll  
cause everybody is an enemy x2

Nas:

Watching my own back  
Strapped with chrome, to my homies  
Where the tombstones at, where the hoes at?  
'Cause to many didn't act like dykes, hermaphrodites  
With benzene, amen  
Look at the trash they biting  
The life in times is kinda wetter  
Like the time and life of the sandman  
On Apollo theater  
Imagine that from the black with a hook  
Who pulls the wack talent off the stage  
I'm in rage

Nas:

Trust nobody  
I don't know who to call a friend  
they all just pretend to be  
---- Everybody this is to all of ya'll  
cause everybody is an enemy x2

Korn:

You fill your lies around me  
and you think you've won  
You feel you can control me  
with the things you've done

Jermaine Dupri:

You think that you can take me  
you think that you can play me  
you're going to start to hate me  
I feel that you disgraced me x5

Nas:

Trust nobody  
I don't know who to call a friend  
they all just pretend to be  
---- Everybody this is to all of ya'll  
cause everybody is an enemy. x2
