

# Kosheen, Wish You Were Here

This century  
Is caused by reckless handling  
And causes insecurity  
Distance isn't good for me  
Memories far past and done

And I wish you were here [2x]

Into me  
Driving the reality  
Rolling right up over me  
I'm not aware I want to be  
By your side

And I wish you were here [2x]

I wish you were here  
I wish I could change  
Turn around the time  
Rearrange the play  
Even though you're near  
You seem so far away  
You seem to disappear  
From sight and sound  
Ain't gone again

And I wish you were here  
(Ah, ah, ah, ah, ah)  
(Here)
