

# Kotipelto, Sleep Well

Yesterday is like a dream  
Nothing's what it seems to be  
another hit, just another score  
No emotions will I show  
My Blood is frozen to the bone  
Feeling so dead inside my soul  
So many things I'll never know

Stalking behind, you are the prey  
waiting to stumble down my way

(Chorus)  
Sleep well my baby  
dream on my darling beauty  
Sleep well my baby  
I'll be back one day

Lost in a world so cruel and dark  
Caught in a haze far off the mark  
Try to evade that road to hell  
Loneliness, my only friend  
Cast in my shadow till the end  
A slip of knife, or a twist in the jest I know too well

(Chorus)  
Sleep well my baby  
dream on my darling beauty  
Sleep well my baby  
I'll be back one day

Tell me are you afraid  
That I won't come back to you again  
Asking if I'll stay  
If I could I would babe
