[richter]

Whats up everybody, its your boy Johnny Richter
The same mother fucker you used to seeing in pictures
With a bong, a joint, a pipe, or a big bag
The criCKETy chronic that I always seam to have
Yes I, always seem to have a little som'em som'em
And I, always got the pot that keeps the people com'in
And you, you know cant repeat the words for ??
So I, just sit back, relax, an get high with the women
Blowin tokes while getting blown, lettin it flow
Johnny Richter, plus a ho, plus a bag of indo, oOoooooooooooo....
And thats the shit that people want to dream about
Makes you want to scream and shout
wait till my dicks out your mouth
Damn baby, you need to relax on that thing
Treat that thing like a nice glass piece

Who wants to get their high on
put some blend on this song (get your high on)
Fire up the vaperizer
Go clean out that bong (get your high on)
Who wants to get their high on
higher then babylon (get your high on)
Speek to your messiah
Come along hit the bong (get your high on)

[d-loc]

Simon says.....
Shut the fuck up if you aint got no weed
You need to back the fuck up if you got sticks and seeds
D double dash they all say I got the bombest
Everybody claiming that their B.C. is chronic
Why, do you always smoke when you know you buds garbage
I smoke that purple kush, green crack, lemon, super silver haze
So now, you know what the fuck I mean when I say ganja, ganja ganja
Not a day go by, red eyed, dont ask why
Tonights the night for me to let smoke fly
If your down with the Krown everybody get high

Who wants to get their high on
put some blend on this song (get your high on)
Fire up the vaperizer
Go clean out that bong (get your high on)
Who wants to get their high on
higher then babylon (get your high on)
Speek to your messiah
Come along hit the bong (get your high on)

(Stoned, lets get stoned) (Stoned, lets get stoned)

[daddy x]

I wanna get stoned now, releive my stress level
Decompress, elevate like a soul rebel

I'm uplifted, my spirits risin
I'm on couch-lock this aint suprisin

I got the munchies seein new horizens
Eyes goin south bound now were vaporizen
Im smokin Dutch Dragon, Magic Bud, Skunk-one
Purple Haze, Donkey Dick, Hindu Kush AND Chocolate Chunk
Cotton Candy, White Widow, Cali Mist, and Bubble Gum,
Blue Berry, Mothers Finest, making peace with everyone
And just think, this nights just begun.. haha get your high on

Who wants to get their high on
put some blend on this song (get your high on)
Fire up the vaporizer
Go clean out that bong (get your high on)
Who wants to get their high on
higher then babylon (get your high on)
Speak to your messiah
come along hit the bong (get your high on)

Who wants to get their high on

Fire up the vaporizer

Who wants to get their high on

Who wants to get their high on
Come along hit the bong

I wanna get stoned now
