

# Kottonmouth Kings, Living In Fear

Full speed ahead never slow my roll lightin Js as I pass your Hi-way patrol  
On the sidewalk spittin as the cop drive by-  
piggy starin at me like Im supposed to blink an eye  
I dont fear other men other men fear me  
I dont believe in your ignorant hypocrisy  
I dont need you to judge me or read me my rights  
tough cops on bikes no gay men in tights

A little bit of love  
A little bit of fear  
A little bit of everybodys mouth in my ear  
I aint listen to you because I do what I do  
And if you got some buds  
Im a smoke then to  
You betta back the hell up a give Loc some space  
And quite the bullshit youre yellin in my face  
I got one life to live and Im goin out smoking  
So fuck what you say and the people that are chosen

Livin in fear fear of their cops fear of their jails fear of their laws  
livin in fear fear of their plan fear of their guns fear of there hand-  
Livin in fear fear of their hate fear of their boots night sticks-n-mace  
Fear of their power ignorance and greed  
fear of their laws and the hate they breed- Fear Not

This is a unified session built for world wide token I  
may stay bent true but Im not broken  
you silence me see cuz Im out spoken  
your sleep walkin now Im awokin  
ask D-loc If you think Im jokin  
D-loc stays blazed everyday Im token  
so if money cant be eaten and freedom cant be bought  
you speak of free thinkin theyll incarcerate your thought  
so give me the right to speak and Im a take it  
give me a mold to break and Im a break it  
true to myself I stay I cant fake it  
put the pot in the brownie mix and then bake it

Livin in fear fear of their cops fear of their jails fear of their laws  
livin in fear fear of their plan fear of their guns fear of there hand-  
Livin in fear fear of their hate fear of their boots night sticks-n-mace  
Fear of their power ignorance and greed  
fear of their laws and the hate they breed- Fear Not

You want me to be scarred, prepare to be let down  
Im standing strong on my ground, still reppin P-town  
Ridin round in my crown, the cops see me and frown  
And they be acting like clowns, pulling me over for my sounds  
Fuckin hassling me with their authority  
With their badge, fucking fags, illegal search and siege  
Found a little bit of weed, now I gotta pay a fee  
When I can smoke in the streets is when Ill really be free

Livin in fear fear of their cops fear of their jails fear of their laws  
livin in fear fear of their plan fear of their guns fear of there hand-  
Livin in fear fear of their hate fear of their boots night sticks-n-mace  
Fear of their power ignorance and greed  
fear of their laws and the hate they breed- Fear Not
