

KOVALCZYK, Stars and Shivers

The tide is turning
And my head is full of stars
All Bridges burning
And we all know where it starts

Keep on running
Keep on dreamig
All we need is feeling free
Keep on looking
Kweep on fighting
All we feel, we are here

I feel desire
There are shivers in my blood
We're on a wire
We are back and we won't stop

Every day gets us closer
You should know we want it now
Under one flag we hold
Now you know that we won't stop
