

# Kreator, Take Their Lives

Living your life in endless frustration  
Everyday you get nervous and teased  
You think about your youth with sex and pleasure  
Now the times have changed the blood you bleed

[Chorus:]&lt;/i>&gt;  
Living a destructed  
it before you die  
Take what you don't need to betray  
Your end is nearer than you think you know  
You can't survive  
Take their lives, don't wait another day  
Take their lives

Normal man of the civilisation  
Is that what you wanted to be?  
You know the deadly force in your veins  
And tonight you set the power free

[Chorus/Solo]

Take them into the cellar, be sure that they can't scream  
They have taken all the best years of your life  
You don't feed no mercy as you locked them on the chains  
You don't care about your children's cries  
Now there ain't no turning back the axe shines in your hand  
You cut the first limb with laughin' eyes  
Your crimes complete and you will pay, they'll hunt you to the ground  
your days are counted now you have to run

[Solo/Rpt chorus]
