

Krewella, Human

Is anybody there, does anybody care what I'm feeling?
I wanna disappear so nobody can hear me when I'm screaming
Coz I could use a hand sometimes
I could use a hand sometimes
They say pain is an illusion
This is just a bruise and
you are just confused but
I am only human
I could use a hand sometimes
I am only human /3x

The night is bitter cold
I wonder if you know
that I'm sleepless
I'm waiting like a ghost
when I need you the most
that go unnoticed
Coz I could use a hand sometimes
I could use a hand sometimes
They say pain is an illusion
This is just a bruise and
You are just confused but
I am only human
I could use a hand sometimes
I am only human /2x

The weight of the world is pulling me down
Where are you now, where are you now
Every breathe feels like I'm gonna drown
Where are you now, where are you now
I'm the only one left to hold on oh
Singing this song but can't find the words
Coz I could use a hand sometimes
I could use a hand sometimes
They say pain is an illusion
This is just a bruise and
You are just confused but
I am only human
