

# Krezip, Days Like This

Hide myself from sorrow, tryin to see it all  
I dont care about it, look what I have done  
Things that really matter slide right through me here  
Tryin my best to see it, tryin the best I can  
But with my back against the wall  
Scared to slip and scared to fall

Chorus

Where I stand

No time for

Days like this

Days like this

So you see exactly what Im doin wrong

Could you please explain then what you would have done

It doesnt really matter what you say to me

Tryin my best to ease up, Tryin the best I can

But with my back against the wall

Scared to slip and scared to fall

Chorus

Where I stand

No time for

Days like this

Days like this

I dont feel like I used to feel

I force myself to see

That sometimes its better to let it be

To let these days go by

Chorus

Where I stand

No time for

Days like this

Days like this
