

# Krezip, Get It On

Tonight's the night.  
Better make it fast 'cause it feels alright.  
This is the time.  
You know 'cause it's all he said.  
It's nothing like the sun.  
It's better than the moon that shimmers so nice.  
It's prettier than your eyes.  
Even though they're little stars.  
Get it on.  
You make it feel alright.  
Break her heart.  
You know you can.  
She'll feel like hell.  
But why should you care?  
My god you don't even mind, yeah.  
Don't even mind, yeah.  
It works again.  
You know how to get her this far.  
She thought you were soulmates.  
Well, how foolish can you be?  
She doesn't make it too hard.  
She rather be too fast instead of losing you.  
She probably knows she'll regret.  
But that doesn't matter now.  
Get it on.  
You make it feel alright.  
Break her heart.  
You know you can.  
She'll feel like hell.  
But why should you care?  
My god you don't even mind, yeah.  
Don't even mind, yeah.  
Get it on now.  
Just make it fast, it feels alright.  
Be the only one.  
And if that is what she thinks.  
Disappoint her.  
God, you don't even mind.  
Break her heart now.  
You did, yeah.  
He took you home.  
That's how fast you let it come.  
Be the only one.  
Well what do you really think?  
You are lost now.  
And who really is to blame?  
He broke your heart, yeah, he did.  
Get it on.  
You make it feel alright.  
Break her heart.  
You know you can.  
She'll feel like hell.  
But why should you care?  
My god you don't even mind, yeah.  
Don't even mind, yeah.  
Get it on.  
You make it feel alright.  
Break her heart.  
You know you can.  
She'll feel like hell.  
But why should you care?  
My god you don't even mind, yeah.  
Don't even mind, yeah.
