

# Krezip, More Than This

I should be able  
I should have tried, justified  
We could be nothing  
We cant deny  
But I still got pride  
Could we be loved, could this be real  
Cause we ought to be just fine  
chorus  
Theres got to be more than this  
more than I can give  
More than this  
And more than I can give  
So we do believe  
Believe it all again  
It may be that Im gone tomorrow  
Maybe then Im gone  
And will I return  
In what kind of form  
No it really doesnt matter  
I dont give a shit  
Could we be loved, could this be real  
Cause we ought to be just fine  
chorus  
Theres got to be more than this  
more than I can give  
More than this  
And more than I can give  
Ill break it down Ill hunt it down  
Just the way it ought to  
Cause after all it all comes round  
Just wait and see  
Maybe that we could  
Maybe that we should  
chorus  
Theres got to be more than this  
more than I can give  
More than this  
And more than I can give
