Krezip, Take it baby

You disappeared right inside of this
Inside of where you love to be
Where you dont need to see
Theres more to life than this
Yelling at the ones you love
Yelling at the ones you dont
Crying out for more
Chorus
Now you take it baby
Get yourself up and let it slide
It aint easy baby
let yourself go
There should be time to get over it
To see it just the way it is
Time to reveal yourself
Theres more to life than this
Yelling at the ones we love
Yelling at the ones we dont
Crying out for more
Chorus
Now you take it baby
Get yourself up and let it slide
It aint easy baby
let yourself go
Got trapped here, got trapped inside
It caught me, it caught me
Chorus
Now you take it baby
Get yourself up and let it slide
It aint easy baby
let yourself go
Now you take it baby
Come on
Now you take it baby
Pull on
Now take it back
