

# Krezip, What It Takes

Do I got what it takes  
to be down on the ground like you are (and still go on)  
Can I feel what it is  
to be loving my life like youre loving it (cause youre loving it all)  
The strongest will survive  
Youve all got the strength to fight  
But havent all got the right  
Do I got what it takes  
to be running to be far away from home  
Realize what is to know  
not to know if you ever can return (to the ones you love)  
The strongest will survive  
Youve all got the strength to fight  
But havent all got the right  
What will you feel when you see us like this  
Will you understand why it is  
So you explained that you understand life  
Right after you told me I did  
What will you feel when you see us like this  
Will you take it home like I did
