

# Krisiun, Endless Madness Descends

Down below the remains of my grave  
an incessant summoning rages on  
evoking and descending into pure obscurity  
scepters of madness surround me  
transgressing visions and horrors  
of my cursed blasphemous past  
brimstones stench from my ashes arise  
erupting blind maggots and worms  
within the downfall of shadows  
my fierce spirit rides again

revengeful creature of hatred  
massacre of nations I've seen  
enchanted as cursed  
by the serpents from the deep  
at nightshade my soul drifts  
inbreeding the hate profanation  
incantation of powers corpses  
of angels I devourer  
bring of revenge  
accursed creature of hatred  
spells of desecration I cast  
as I ride thru the maze of death  
upon the kingdom of madness  
at each dawn I die

Creature of hatred entrangled into madness  
ritual of blood for my existence  
secrecy of black rites I evoke  
killing and dying evoking descending

for its power for me conceived  
for its spells for me revealed
