

Krispies, (I'm On The) Radio

I haven't slept very much
Havin' a hell of a time
Took my mind set it on one thing
Same old, same never
So glad we're together
Go on, choose the better
Sunshine, under the blue sky
Open the radio, I'm on the radio
Made it clear to begin with
Never to compromise
It's only fare with you there...
Someone wrote a letter
Supposed to be this whatever
So glad I don't get it
Sunshine, under the blue sky
Open the radio, I'm on the radio
