

# Krispies, Like No Other

Hi, so long, unordinary  
I don't know if you should make it on your own  
As you go you leave me weary  
Even though I've been aware of this since day one  
There she goes  
I love her like no other  
And I don't even know  
If I should let her know  
My secret now  
So, you love to cross some borders  
I can only pray that everything works out  
Hope you'll find what you are after  
I'm glad to know you'll never lose your way back home  
There you are  
I love you like no other  
And I don't even know  
If I should let her know  
My secret now  
There she goes  
I love her like no other  
And I don't even know  
If I want to know  
My secret now
