

Krispies, Radical

There ain't nothing to talk about
We ran out just the other day
Such a bore, now we're all without
But there ain't much I can say
Now you know we are getting old
And it's gonna be the next big thing
Lost you there on the way to nowhere
But I just cannot complain
It's radical, it's magical to live without it
Ain't no use to waste another day
Phenomenal, so critical to dream about it
Once upon a time we used to say...
Red light, green light
I know you could have run
Remember what we talked about
It's easier to be on your own
Than live your life in doubt
Funny how the people change
Once you have been away
Same old faces, same old places
Treat you like you're someone strange
It's radical, it's magical to live without it
Ain't no use to waste another day
Phenomenal, so critical to dream about it
Once upon a time we used to say...
