

Kriss Sheridan, Happy

Any single moment
Miracles can happen
You know what I'm saying
You're a gift from Heaven

How could I be so dumb
How could I be so blind

Every day, every night
Every step by your side
Makes me happy

All your love, all your light
Makes me strong, makes me smile
Makes me happy

Wrap your arms around me
Hey I think I'm crazy
I need you to love me
Don't hold it against me

How do you feel in my arms
How do you heal a broken heart

Every day, every night
Every step by your side
Makes me happy

All your love, all your light
Makes me strong, makes me smile
Makes me happy

Every day, every night
Every step by your side
Makes me happy

All your love, all your light
Makes me strong, makes me smile
Makes me happy

Every day, every night
Every step by your side
Makes me happy

All your love, all your light
Makes me strong, makes me smile
Makes me happy

Every day, every night
Every step by your side
Makes me happy

All your love, all your light
Makes me strong, makes me smile
Makes me happy
