

# Krist van D, I need Love (feat Adam Joseph)

i want fortune  
i want fame  
or know,  
everyone to know my name

and you know  
I want to be there when you call  
only one little problem  
holding back my desires  
is I can't have it all

coz I need love  
I need love  
it's the only think I can't live without  
live without  
I need love  
I need love  
it's the only think I can't live without  
why you're not gonna try?

I want day  
and you want night  
you want more space  
I want to hold you tight

and you know  
you're the only who can say  
only one little problem  
holding back my desires  
is I can't have it all

coz I need love  
I need love  
it's the only think I can't live without  
live without  
I need love  
I need love  
it's the only think I can't live without  
why you're not make me try?
