

Kristen Barry, I Swear

Come on little guinea piggy
Lead me by the nose to you
I jumped for you in the beginning
Now you've made me into your fool

But I swear I won't go that way again
I gave you all I gave you what I had
I didn't it think that it was really so bad
But once they start to suck
They'll leave you hollow in the end

So I don't care what you give me
Doesn't give you more power
YOu think you can just come and crack me
And leave me wilted like stupid little flower

I swear I won't go that way again
I gave you all I gave you what I had
I didn't think that it was really so bad
But once they start to suck
They leave you hollow in the end
