

Kristin Hersh, Me And My Charms

You can come back
When you want
Just know that I'll be here
I haven't left this step
And when the lights go out
I pick the angel up
I only have two hands...

Is she here?
Is she here right now?
Drive her off
Don't bother to call
I'm checking out today

Me and my charms
Me and my charms
When I kiss the angel
I have a taste of you
When I take the angel
I have a piece of you
I have a piece
I have a piece

You can come back
I haven't left you yet
And when the lights go out
I pick the angel up
I only have two left feet
All I have in my hands
All I have in my hands

Me and my charms
Me and my charms
When I kiss the angel
I have a taste of
Me and my charms
Me and my charms
Down on the ground
You can't leave me now
You can't leave me now
I haven't left you yet
