

# Kristine W., Stand In Love

(Stand in Love)  
Stand in love

Falling, I'm falling for you  
I can feel myself starting to  
put you first and put me last  
Just like in the past

I'm changing how I walk and I talk  
Trying to be the woman you want  
I've done all those things before  
No I can't do them anymore

'Cause I don't wanna fall in love  
I wanna stand in love  
Be who I am in love  
Not find someone and lose myself  
I'll give you my all in love  
But I've got to stand in love  
Not gonna change again for anyone  
It hurts too much  
I've got to stand in love

I'm ready to give you myself so completely  
But I don't need anyone else to complete me  
I wanna man who wants me by his side (by his side)  
Not one step behind  
Love is supposed to make you more than you were (you were)  
Not take things away, not close any doors  
I've got my own dreams, too  
I can't give them up for you (no no no)

I don't wanna fall in love  
I want to stand in love  
Be who I am in love  
Not find someone and lose myself (myself)  
I'll give you my all in love  
But I've got to stand in love  
Not gonna change again for anyone  
No it hurts too much  
I've got to stand in love (stand in love)  
(I don't wanna fall I don't wanna fall)  
(I don't wanna fall I don't wanna fall fall)  
(I want to stand in love)

I'll give you my all in love  
But I've got to stand in love  
Eye to eye, right by your side  
that's all that I'm dreaming of  
I want to stand in love with you  
I want to stand  
(Wanna stand wanna stand wanna stand)  
In love with you

Won't you stand in love with me too
