

# Kristy Starling, As Long As We're Here

Why do we have to fight?  
Why can't spend our time... trying?  
I wanna be close to you  
Keep love from slipping through... my hands  
The words said in anger aimed at someone  
Are hard to take back once the damage is done

Let's stop now....

As long as we're here... alive on this earth  
I'm gonna love you... for all that it's worth  
And one of these days ... we're gonna take off and fly...

Let's make the most of of our time  
As long as we're here... (yeah...)

Some people live their lives  
Holding their fears... inside them  
Afraid to build windows  
To let the light of the world in...  
They hide in the darkness of self-imposed walls  
If they could just tear them down... they'd have it all

As long as we're here... alive on this earth  
I'm gonna love you for all that it's worth  
And one of these days ... we're gonna take off and fly...

Let's make the most of of our time  
As long as we're here... (yeah... yeah... yeah...)

When you're with me.... I breathe easy  
You are my need (?).. right now love me

As long as we're here (as long as we're here)  
I'm gonna love you (I'm gonna love you)  
And one of these days ... we're gonna take off and fly...

As long as we're here... alive on this earth  
I'm gonna love you for all that it's worth  
And one of these days ... we're gonna take off and fly...

Let's make the most of of our time  
Oh.. make the most of our time  
As long as we're here...  
As long as we're here...
