

Kristy Thirsk, Out There

(Thirsk/Wong)

i know you're out there, i'll find you somewhere, i know you're out there
no matter how far
i know where you are, somewhere in space, i don't see your face
but i hear your voice, darling, and it's like you disappear, i have no fear
i know you're out there, i'll find you somewhere, i know you're out there
no matter what star, i know where you are, you're never too far
i know where you are, safe in my dreams, you live on for me
and i hear your voice calling to stars, and heaven's so clear, still feel so near
i know you're out there, i'll find you somewhere, i know you're out there
no matter what star, i know where you are, you're never too far
i know you're out there, i know you still care, i know you're out there
no matter what star, i know where you are, you're never too far
you're alive, you're alive, you're alive in my heart
i miss you, but i know that you're out there
i know you're out there, i'll find you somewhere, i know you're out there
no matter what star, i know where you are, you're never too far
i know you're out there, i know you still care, i know you're out there
no matter what star, i know where you are, you're never too far
i know you're out there
