

Kristy Thirsk, Underground

(Thirsk)

only now do i react
to your cold sword giving me facts
i need to pull it right through
damage undo
i feel let down, underground, underground
i feel let down, underground, underground
take your time, every breath's laced
with slow decline, to fall it from grace
but i will hold my banter
let silence canter
i feel let down, underground, underground
i feel let down, underground, underground
i feel let down, underground, underground
