

Kroisos, Every day is Monday (without you)

I saw your face in the crowd
And right away I had to scream
My love out so loud
I felt so high that I can't even describe
You were more than divine
I saw how you moved
I saw how you danced
And you just felt like falling into romance
With me oh -lucky me
You are the only one I want to please

Chorus:
Every day is like Monday without you
I need you by my side
On shiny days and dark nights
It's all about love, babe

Watching from my window down to the street
Maybe you might just walk by
There ain't one moment
When you are not in my mind
You are so divine
These November days turn
Into the night at 4 p.m.
And I am totally out and down
Lost and lonely, without you
