

# Krokus, Angel Of My Dreams

There she stood  
At the edge of my bed  
Flowers sweet  
In her long long hair  
Angel... beckoned me to follow  
She took my hand  
And spread her wings  
Freein' my spirit  
From earthly things  
Far from the starlight and narrow  
Angel of my dreams  
Look into my eyes  
Tell me we will never fall  
Angel of my dreams  
Look into my eyes  
Tell me we will never fall!  
She placed my shaft  
On her feathered bow  
She aimed high  
And let the arrow go  
Deep in her ancestral heaven  
I could feel this strong  
Celestial force  
A natural mystical  
Divine source  
Flyin' me to a new dimension  
[repeat chorus]  
Never never never never fall
