

KRS-One, Womenology

[Chorus: repeat 2X]

If you want a woman to treat you right

[KRS talking through Chorus]

That's right, that's right

I think y'all need to listen to this, stop what'cha doin

[Verse One]

Women will treat you right

But you can't be one of them lookin a freak you lookin a beat you type

You gotta seek the light in the dark

I used to free this mic in the park

Now I speak direct to your heart

Women want men to show respect for they art

Women don't be checkin for the chart

They go straight to sister to sister and pick it apart

Begin with the heart, our sisters is a living art

Always givin, always deliverin, always making something bigger from just a little part

Big up to the sisters that start up businesses

With nothing but muffins, still liftin kids

Strong women ,work long women

Not them dump-ass dizzy stupid thong women

King-Kong women, bring it all women, independent women with thoughts & opinions

Women like G.Simone, See, I maybe the Pharaoh

But believe she is the crown Let me leave it alone

Cause a lot of ya still wanna rome, they got houses but still want home

Sittin on chrome but forever alone

Cause intelligent courageous women they were never shown

They say they don't love them hoes

But Jesus allowed hoes to wash in all his toes

I don't mean to impose, but if you want a woman to treat you right

I don't think you need to start with the clothes

I think you need to start with what she knows

[Chorus]

[Verse Two]

That's what you got to know from the start

Whats in the heart & the mind

Without that you startin out blind

You're going into a direction of what a trap ???? behind

Its like you sittin in a cell with the doors opened

and you decide to sit and do the time

Free your mind, don't pattern your life after some freestyle rhyme

See me, I'm...
