

Krypteria, No More Lies

How, how do I know what's real, tell me how, tell me now

How, how do I know what's real or how a girl's supposed to feel
When all around me seems so weird, tell me now

No more lies - veritas te cum
The price I have to pay is way too high
No more lies - veritas te cum
No I don't want to make this sacrifice
I never will cause I don't want to live with all your lies
No more lies - veritas tecum, veritas

And how, how do I know what's true or what a girl's supposed to do
With all the lies you put me through, tell me now

No more lies - veritas te cum
The price I have to pay is way too high
No more lies - veritas te cum
No I don't want to make this sacrifice
I never will cause I don't want to live with all your lies
No more lies - veritas te cum, veritas

I, I decided long ago that I won't take this anymore
I just can't take this anymore, no more

Veritas te cum
The price I have to pay is way too high
No more lies - veritas te cum
No I don't want to make this sacrifice
I never will cause I don't want to live with all your lies
No more lies - veritas te cum, veritas
