

Krzysztof Kiljański, Center Of Time

Maybe it's magic, maybe it's only a dream
and whenever you're near, anytime
You're all I feel We're the center of time
Maybe I'll wake up, maybe it's not what it seems
but whenever we kiss, everywhere
You're all I feel We're the center of time
Wherever I am, wherever you go
there's no distance I fear
'cause love's always here, everywhere
You're all I feel You will always be there
Maybe there's gray skies, maybe we'll walk in the rain
but whenever we touch, anytime
You're all I feel We're the center of time
Wherever I am, wherever you go
there's no distance I fear
'cause love's always here, everywhere
You're all I feel You will always be there
You're all I feel You will always be there
