Krzysztof Kiljański, Center Of Time

Maybe it's magic, maybe it's only a dream and whenever you're near, anytime You're all I feel We're the center of time Meybe I'll wake up, maybe it's not what it seems but whenever we kiss, everywhere You're all I fell We're the center of time Wherever I am, wherever you go there's no distance I fear 'cause love's always here, everywhere You're all I feel You will always be there Maybe there's gray skies, maybe we'll walk in the rain but whenever we touch, anytime You're all I feel We're the center of time Wherever I am, wherever you go there's no distance I fear 'cause love's always here, everywhere You're all I feel You will always be there You're all I feel You will always be there
