

# Krzysztof Krecft, Don't Wake Me Up

1. I like this moment when the sun sets  
When I sink my face into a velvet  
Pillow thinking what a new day might bring  
I feel a shiver on my skin when I fall asleep  
And I always wait until you come and wrap me to sleep

Ref: I don't remember how I woke up next to you  
I forgot what is like to feel your breath on my neck  
If you finally remember 'bout me  
The door is open, come to bed  
And please don't wake me up  
Let this moment not be the last one  
Let this moment not be a farewell

2. I never told you but I always look at  
Your pictures when I'm in bed  
It's hard to remember your laughter  
And the smell of your skin  
Your voice sounds like the most beautiful lullaby  
When you say my name I feel small when i'm with you
