

Krzysztof Krecft, Never Been Mine

1. You can't go just like this
I said too much to you
All of my words I'd throw on you
I was sad and lonely

And for you it was too much
And for you it was too deep

Ref: If I have to go away
I have to forgive to myself
These empty words don't mean anything

2. If you see me someday
Just look at me and for a second be mine again
But you have never been mine

I can't do this to you anymore
I can't expect more from you
I'm not good enough and you're not too

Ref: If I have to go away...

I can't meet you and know that I had my chance to say
And now you're leaving me for someone else

Ref: If I have to go away...

I can't met you and know that I had my chance to stay
And now you're leaving me for someone else
